Currency Exchange Secret Key

Get your free key on <https://free.currencyconverterapi.com>

Submit

- 5 In case you work with more than one currency, you can setup an automatic exchange service. The currencies will be converted every 24 hours.
- 6 Simply sign up for a free api key from [currencyconverterapi.com](https://free.currencyconverterapi.com) and add your key in the input field.

- 7 By clicking on the green "Submit" button you save the information above.
- 8 Scroll down for adding the payment gateways.

Payment Gateways

Stripe Live Secret Key

Stripe Live Publishable Key

Paypal Client ID

Paypal Secret Key

Sandbox

- 9 At this moment we support 4 different payment gateways which all support subscriptions as well. Stripe, Paypal, YooKassa and Paystack.
- 10 In the corresponding fields add the correct keys. You will get your keys in the dashboard of the payment gateway.

- 11 Stripe does provide two soft of keys. Live and Sandbox (Test) Keys. Simply change the keys for either testing or charging your customers.
- 12 Paypal does not provide different keys, therefore you have to use the option "Sandbox" to test the payment gateways.

YooKassa ID

YooKassa Secret

Paystack Secret

Submit

- 13 YooKassa provides also two keys. So you can simply use the test keys if you like to test the payment gateways.
- 14 Paystack is only providing one secret key and they also give you the option for testing or live scenarios.

- 15 With the green "Submit" button you will save the information above.
- 16 Scroll down to setup payment gateways for the packages (see section 14).

12.1 Payment Gateways

Setup Payment Gateways for your packages.

Paystack Secret

Payment Gateways

ID	Location	Title	Currency	Sandbox	Active	Last Edit
1	1	Stripe	USD	✓	✓	28.06.2021

- 17 You can setup unlimited payment gateways for your packages. Also in different currencies. The currency converter (see number 5) will do the rest.
- 18 All payment gateways are listed in the table.

- 19 With a click on the title or "Edit" button you can edit the payment gateway.
- 20 Quick information if this gateway is active and using the "Sandbox" environment. Sandbox means testing the gateway.

Add Payment Gateway

Active	Last Edit	Created
✓	28.06.2021 11:30 am	28.06.2021 11:30 am

- 21 Add a new payment gateway by clicking on the blue "Add Payment Gateway" button.
- 22 The date when the payment gateway has been edited last.
- 23 The date when the payment gateway has been created.
- 24 The edit and delete button are self explained. :)

12.2 Manage Payment Gateway

Explained how to manage the payment gateways.

Edit Payment Gateway

Location
CloudDesk 3 Operator
