

1. HelpDesk 3 - Client Login

The screenshot shows a modal login window for 'HelpDesk 3'. At the top, there is a navigation bar with links for HOME, SUPPORT, FAQ, BLOG, CONTACT, and SEARCH, along with a search icon. The modal title is 'HelpDesk 3' with the subtitle 'Login into your Account'. Below the title, there are four numbered callouts: 1. A text input field for 'Your Email' with an '@' icon. 2. A text input field for 'Password' with a key icon. 3. A 'Remember Me' checkbox, which is checked. 4. A large green 'LOGIN' button. Below the login button, there are three buttons: 'REGISTER' (blue), 'FORGOT PASSWORD?' (orange), and 'CLOSE' (grey).

1 The client login contains two input fields. Login with your email address and password.

2 The “Remember Me” checkbox will keep you logged in for a certain time (usually about 1 Month). That way you don’t need to login each time you revisit.

3 Press the big “Login” button, in case everything is alright you will be forwarded to your client area (see number 4).

4 You can “Close” the modal (popup) window by clicking on the “Close” button or by clicking on the outside area of the modal window.
