

2. HelpDesk 3 - Client Register

1 The client register modal window contains also two input fields. Enter your name and email address, the password will be emailed to you.

2 Press the big “Signup Now” button to create your account. Remember the password will be sent to your email address, you can change it later.

3 Do you have already an account, press the “Login” button to open the Login modal (see number 1).

4 You can “Close” the modal (popup) window by clicking on the “Close” button or by clicking on the outside area of the modal window.
