

## 6. HelpDesk 3 - Contact Form

The image shows a contact form with the following elements:

- 1**: A label "Your Name" above a text input field containing the placeholder "Your Name".
- 2**: A label "Your Email" above a text input field containing the placeholder "Your Email".
- 3**: A label "Your Message" above a large text area containing the placeholder "Message".
- 4**: A blue button labeled "SEND EMAIL" at the bottom right of the form.

**1** The standard contact form contains 2 input fields and 1 textarea. It can be extended in your operator panel under custom fields.

**3** A minimum of 3 characters is mandatory for the textarea field.

**2** The email address input field will check if the email address format is valid.

**4** The form can be extended with ReCaptcha and DSGVO. Please check in your operator manual how to do so. The "Send Email" button will start the send process.
